

Support Response Time

When Discerning customers submit support cases through Red Hat Marketplace and related to the use of Red Hat Marketplace – including access, features, purchasing products, billing, entitlement and provisioning, there is a commitment to the response times and coverage in the service level table below. Discerning customers are customers who have purchased a product and are requesting support for Red Hat Marketplace activity related to that product. There is no commitment by Red Hat Marketplace for other support, or to other users; users submitting such cases can anticipate a response time equivalent to Severity Level 4.

Support for product Configuration, Usage, and Functionality is performed by the Provider at the Service Level specified by the Provider, and through the contact method provided by the Provider. This information can be found on the product page on Red Hat Marketplace. A “Response” is defined as a human support agent’s first response, confirming that a case has been received.
